

A Note from the Skating Director

When your skater is on the ice, a mask will not be required but is permitted if a parent / guardian deems necessary.

While teaching class, we will work to keep kids socially distant from one another. Classes will be divided by cones to ensure groups stay in their designated section of the ice. To enter the ice, skaters will follow the signs to walk around the end of the arena. We will ask skaters to stand on the "x" while waiting for classes to begin. To exit the ice, skaters will get off down by the Olympia end and walk behind the bleachers into the lobby. In an effort to minimize interaction of groups, we ask that skaters and parents / guardians plan to limit time in the lobby to no more than 15 minutes.
