## Class Description

Our camp will have an intense focus on educating every player on skating mechanics, proper use of edge to produce power, edge control, speed, and conditioning.

Over this 3-day camp, our coaches will breakdown key concepts such as crossovers, edge work, turns, and transitions that are vital to getting your player to the next level.

### 12/28: Power Skating/speed/agility

This class is designed to focus on stamina, balance, foot speed, and smooth skating.

### 12/29: Crossover/transition boot camp

This class will build on principles from Day 1 and incorporate speed and quickness into your player's crossovers and transitions.

### 12/30: Edges & Turns

This class will end our camp with a focus on edge control and turn technique.

Our goal is to have your player complete our camp with newfound confidence in their skating ability.

Space will be limited to 20 participants for each of the camp days offered. We will maintain a waitlist to determine if we expand the class by adding an instructor.
